

OFFICE OF THE SUPERINTENDENT

March 9, 2017

LECC Parents:

I am writing with a brief update on the building.

We will be having school tomorrow, Friday, March 10, 2017 at LECC (and the rest of the district). The roof is water-tight and fixed. The crews will be on-site tomorrow putting up metal fascia (decorative trim around the top of the building) and finishing the clean-up. Students will not have any outdoor recess tomorrow.

The crew should be completely done with this project tomorrow. I'd like to thank J. Stevens Construction for literally fixing this within almost 24 hours of it happening! We are very grateful, indeed.

Kind regards,

Randall J. Fleenor
Superintendent
