

Welcome to Lakewood! Enclosed are the registration forms to be completed for your student(s). Below is a list to assist you in the registration process. Please return all enrollment materials to the building your student will be attending.

#### STUDENT REGISTRATION CHECKLIST

 Fill out all enrollment forms	
0	

- Student Registration Form
- Record's Request Form
- Home Language Survey
- o Concussion Form
- Permission to Place Only required if student receives special education services.

#### Obtain Certified Birth Certificate Copy

State law requires that a certified birth certificate copy (with raised seal) be presented as proof of age for your student. Certified birth certificates were available from the county clerk in the county in which your child was born. Law requires that a state or county certified original be presented at registration. No copies will be accepted. As the law states, we can<u>not</u> accept birth certificate copied and transferred from another school. If you need assistance obtaining your student's birth certificate, please contact the school's secretary. Phone numbers can be found in this packet on the request for records form.

Updated Immunization Record By law, all waivers must be obtained directly from your county health department. Check to see your child has had the following immunizations:

#### \_ Proof of residency

- \_\_\_\_ own or rent Documents required - driver's license with current address and/or utility bill
- \_\_\_ living with another family --Documents required - driver's license with a letter from owner of house in which you are living. Appointment

required with McKinney-Vento Director, Keith Carpenter, (616) 374-8842. other — Court documents may be accepted.

Critique	en are fully protected and any school vaccination res	quirements are met.	
	All Kindergarteners and 4-6 year old transfer students	All 7th Graders and 7-18 year old transfer students	
Diphtheria, Tetanus, Pertussis (DTP, DTaP, Tdap)	4 doses DTP or DTaP 1 dose must be at or after 4 years of age	A doses diphtheria and tetanus or 3 doses M 1 <sup>st</sup> dose given en or after 1 year of age 1 dose Ydep at 12 years of age or older upon entry into 7° grade or higher	
Polio	4 doses or 3 doses if dose 3 was given on at or after 4 years of age		
Measies, Mumps, Rubelia (MMR)*	2 doses at or after 12 months of age

#### Consent for Disclosure of Immunization Information to Local and State Health Departments

Immunizations are an important part of keeping our children healthy. Schools and State and Local health departments must monitor immunization levels to ensure that all communities are protected from potentially life-threatening diseases and, if necessary, respond promptly to an emerging public health threat. It is important that disease threats be minimized through the monitoring of students being immunized.

Sharing immunization and personally identifiable information including the students name, Date of Birth, gender, and address with local and state health departments will help to keep your child safe from vaccine preventable diseases. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, requires written parental consent before personally identifiable information from your child's education records is disclosed to the health department. If your child is 18 or over, he or she is an "eligible student" and must provide consent for disclosures of information from his or her education records.

You may withdraw your consent to share this information in writing at any time.

# Enrollment Form Questions for Identification of English Learners, Immigrant Students, and Migratory Students:

#### **Home Language Survey Questions**

Is your child's native (first) tongue a language other than English?
<ul> <li>Yes</li> <li>No</li> <li>What is the other language?</li> </ul>
¿Es el idioma nativo (primer idioma) de su hijo/hija otro aparte del inglés?
<ul><li>Si</li><li>No</li></ul>
¿Cuál es ese idioma?
Is the primary language used in your child's home or environment a language other than English
<ul> <li>Yes</li> <li>No</li> <li>What is the other language?</li> </ul>
¿Es el idioma principal usado en la casa o "barrio" de su hijo/hija un idioma diferente al inglés?  No
¿Cuál es ese idioma?
Immigrant Student Identification
Where was your child/student born? State Country
If your child/student was born outside of the U.S., then when did the child/student enter the country?
¿Dónde nació su hijo/hija/estudiante? EstadoPaís
¿Si, su hijo/hija/estudiante nació en un país diferente a Estados Unidos, cuando fue que su hijo/hija/estudiante llego a Estados Unidos?
Migratory Student Identification
Have you or a family member worked in agriculture, poultry, dairy, and/or packing house in the last 3 years or 36 months?
<ul><li>Yes</li><li>No</li><li>If yes, where did you work?</li></ul>
¿A usted o alguien en su familia trabajado en agricultura, una lechería, o con animales como pollos o cerdos en los últimos 3 años?
Si, su respuesta es sí. Cuando y Donde

# PARENT & ATHLETE CONCUSSION INFORMATION SHEET

#### WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury. The athlete should only return to play with permission from a health care professional experienced in evaluating for concussion.

#### **DID YOU KNOW?**

- Most concussions occur without loss of consciousness.
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

## SYMPTOMS REPORTED BY ATHLETE:

- · Headache or "pressure" in head
- · Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- · Sensitivity to noise
- · Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Just not "feeling right" or is "feeling down"

#### SIGNS OBSERVED BY COACHING STAFF:

- Appears dazed or stunned
- · Is confused about assignment or position
- Forgets an instruction
- · Is unsure of game, score, or opponent
- Moves clumsily
- · Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

"IT'S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON"

#### **CONCUSSION DANGER SIGNS**

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or Jolt to the head or body s/he exhibits any of the following danger signs:

- · One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- · Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- · Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

### WHAT SHOULD YOU DO IF YOU THINK YOUR ATHLETE HAS A CONCUSSION?

- If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.
- 2. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, and playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.
- Remember: Concussions affect people differently.
   While most athletes with a concussion recover
   quickly and fully, some will have symptoms that last
   for days, or even weeks. A more serious concussion
   can last for months or longer.

## WHY SHOULD AN ATHLETE REPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. They can even be fatal.
