

Extended COVID-19 Learning Plan

Reconfirmation Meeting

Required Every Month After Initial Plan Approval

Agenda:

- Reconfirm how instruction is going to be delivered during the 20/21 school year
- Public comments from parents and/or guardians on the Extended Learning Plan
- Review weekly 2-way interaction rates

Reconfirmation Meeting for December 2020

Reconfirm how instruction (Return to Learn Plan) is going to be delivered during the 20/21 school year:

(Recommendation: Explain in narrative form any modifications to the original Extended Learning Plan)

Due to a State order closing Michigan high schools for in-person instruction between 11/18 – 12/18 all Lakewood High School students received instruction remotely during this period of time. Otherwise, no changes to the content of the [Extended Continuity of Learning Plan](#) was implemented during the four-week period covered in this Reconfirmation Meeting report.

PA-149, Section 98a – Assurance #6: The District/PSA, in conjunction with a local health department will develop guidelines concerning appropriate methods for delivering pupil instruction for the 2020-2021 school year that are based on local data that are based on key metrics.

Update for Week of December 7, 2020 1:41 pm

1) Trend of COVID-19 cases/positive COVID-19 tests

The seven-day average percent positive has decreased over the past week (12/1 to 12/8) from 13.5 to 12%. The seven-day average for cases per million has decreased from 743 to 505. These indicators are now both declining. Please note, as with last week, that this decline is relative to our major surge in the beginning/middle of November – our numbers are still quite high overall.

2) Hospitalizations due to COVID-19

Three at SIH in the past week. Please recall that, regardless, SIH is not a great indicator because they try to transfer COVID patients rather than admit them. Hospitalizations continue to be elevated compared to earlier in the year, but in most areas of the state numbers are plateauing or declining. Remember, as always, that hospital admission numbers can change rapidly.

3) Number of deaths resulting from COVID-19 in the past 14 days

Sixteen for Ionia County

4) COVID-19 cases for each day for every one million individuals

Decreasing. You can get the daily numbers at <https://www.mistartmap.info/>

5) Percentage of positive COVID-19 tests over a four-week period

Increased from 9 to 12% (seven-day average) from November 8th to December 8th.

6) Health Care capacity strength

Nobody knows what this means because the legislature did not define it.

7) Testing, tracing, and containment infrastructure with regard to COVID-19

The Health Department is now partnering with Helix Diagnostics to do drive-through testing at the Fairgrounds in Ionia. Turnaround time for Sparrow and Helix is around 48 hours. Contact tracing has been scaled up at the State level and we are doing better with case investigation. Containment infrastructure is weak. We have no way to know if most people are truly complying with quarantine and isolation. This is a problem across the State.

K-8 can remain open provided there is no active transmission in the building. For purposes of the matrix that was sent out, we are in Risk Category E as a County.
